

## NEW BARREL & SPOIL AUGER

Increased trencher productivity by removing spoil faster and more efficiently.

## NEW DANGER BAR

25% Bigger for increased durability. Reduces crumpler flexing producing a better finish.

## NEW SCRAPER SHOE

The scraper shoe is now made from steel for increased durability.

## NEW FOOT DESIGN

Foot can be seen from the cab enabling the operator to see when it's in the correct trenching position eliminating the need of a spotter. The new design also feeds overburden back onto the chain transferring it to the spoil auger for a cleaner clearer work side of the trench.

## HEAD START CRUMBER

Start trenching with the crumber in the ground eliminating the need to step out of the machine once the trench is started, saving you time & money.

## WHY A TRENCHER OVER A BUCKET?

### EFFICIENT

NARROWER TRENCHES TO GREATER DEPTHS CAN BE ACHIEVED

### FASTER

A TRENCHER WILL CUT GROUND FASTER THAN AN EXCAVATOR BUCKET AS IT CUTS IN A CONTINUOUS MOVEMENT

### EASIER

THE SPOIL IS EXCAVATED MORE FINELY WITH A TRENCHER SO THE TRENCH CAN BE EASILY BACKFILLED WITH BETTER COMPACTION. AS THE SPOIL IS MUCH FINER IT IS SUITABLE FOR THE BEDDING OF PIPES AND CABLES ETC

### ACCURATE

VARIOUS SIZE TRENCH WIDTHS MEANS YOU DON'T HAVE TO EXCAVATE ANY MORE THAN IS REQUIRED. LEAVES THE BOTTOM OF THE TRENCH FLAT AND CLEAN

### COST EFFECTIVE

DIGS 3 TO 4 TIMES FASTER THAN AN EXCAVATOR/BACKHOE WITH LESS MESS. SPOIL IS EASIER TO BACKFILL WITH BETTER COMPACTION

## REVOLUTIONARY HEADSTART CRUMBER SYSTEM...

An evolution from our Bigfoot Trencher with a greater trench digging depth of up to 1500mm. Fitted with a patent pending Head Start Crumber system, quality Digga Planetary Drive & Eaton Hydraulic Motor, adjustable skid foot and single spoil removal auger for consistent digging depth.

Our unique design promotes efficient spoil removal and finely crumbled spoil for effective compaction back into the trench. This provides minimal ground disturbance to surrounding conditions and results in a cleaner finish.

### Features:

- Head Start Crumber System (patent pending) with steel scraper shoe  
Begin trenching with the crumber down and save time by not having to get out of your machine
- Adjustable skid foot features 4 preset digging depths. Highly visible and can be seen from the cab. No spotter required
- Up to 1500mm dig depth & 300mm digging width with a 50.8mm chain  
3 different chain options available: Earth, Combo, and Diggatac
- Standard Flow XD range features a compact, yet powerful Digga planetary drive  
- High flow XD models come with a 6K Eaton hydraulic motor
- Frame can be side shifted for digging close to permanent structures

### Machine Suitability & Ideal Use:

- Suits Excavators up to 8 ton, Skid Steer Loaders, Back Hoes, Tele-handlers
- Can be used for pipe laying for irrigation, underground power / communications, road repairs and general construction

### 4 DEPTH SETTINGS

### 3 CHAIN OPTIONS

EARTH

DIGGATAC
